EXPERIENCE

- Built 10+ custom websites with optimised UX
- Integrated APIs and designed mobile-first layouts

PROJECTS

Cinemate

A sleek movie discovery platform that enables users to browse, search, and explore a wide range of films. Built with React and styled using Tailwind CSS, it offers a responsive and intuitive user interface.

Lumina

A modern web application designed to showcase innovative UI components and responsive layouts. Developed using React and Vite, it emphasizes performance optimization and clean design principles.

Fast React Pizza Co

An interactive pizza ordering application developed with React. Features include a dynamic menu display, real-time order customization, and responsive design to ensure seamless user experience across devices.

EDUCATION

Frontend Development Path — Udemy (2033)

Completed projects in React, accessibility, and responsive design
