Udodirim Wisdom Nnodimele
Front-End Developer

Profile

Front-End Developer skilled in building clean, responsive, and pixel-perfect interfaces with HTML, CSS (Tailwind), JavaScript, and React. Experienced in WordPress, API integrations, and email templates. Passionate about transforming creative designs into functional code, ensuring strong UX, accessibility, and performance. Thrive in collaborative, fast-paced teams while managing multiple projects with precision and speed.

Experience

Freelance Frontend Developer
Remote | 2023 – Present

- Designed and deployed responsive websites for small businesses, ensuring accuracy to client-provided designs (Figma/Adobe XD).
- Delivered WordPress solutions with custom themes, optimized performance, and client training for content updates.
- Built reusable React components and integrated APIs to improve interactivity and efficiency.
- Developed and tested mobile-optimized email campaigns with cross-client compatibility.
- Successfully managed multiple short-cycle projects (1–4 weeks) while meeting tight deadlines.

UI & Web Design Projects

- Created interactive landing pages with Tailwind CSS + React, optimized for SEO and performance.
- Developed HTML5 animated banners for campaigns, ensuring smooth animations and minimal load times.
- Created multi-device responsive layouts, ensuring seamless UX across desktop, tablet, and mobile.

PROJECTS

Cinemate   Live Site | Code

Built Cinemate to streamline movie discovery with fast search + filters; demonstrates strong API integration and React state handling

Code To Video   Live Site | Code

A tool that converts code snippets into animated MP4 videos with syntax highlighting. Made for developers to create tutorials, demos, and social content.

Fast React Pizza Co   Live Site | Code

Interactive pizza ordering app with dynamic menu updates and form handling. Highlights skills in state management, clean logic, and mobile-first UX design.

Education

Front-End Development Path   Udemy, 2023

Completed modules on React, responsive design, JavaScript best practices, and accessibility.

Skills

Frontend:
HTML5, CSS3 (Tailwind), JavaScript (ES6+), ReactJS, Next.js, TypeScript

CMS:
WordPress (theme customization, page builds), Strapi (headless CMS)

UI/UX:
Responsive design, cross-browser compatibility, accessibility standards

Other:
Git/GitHub, REST APIs, Figma-to-code, QA & testing, email templates, HTML animated banners

Soft Skills:
Problem-solving, adaptability, detail orientation, teamwork, deadline-driven

Core Strengths

- Pixel-perfect builds: Turning creative designs into flawless, functional code.
- Adaptability: Experienced in handling multiple short-term projects under pressure.
- Collaboration: Strong communicator who thrives in team-based workflows.
- Quality-focused: Balances speed with attention to detail and UX.
